TESTIMONIALS

- Boman Irani - Chairman and Managing Director, Rustomjee Group (ODP II)

“REMI has done a fantastic job of bringing people together from the industry where they can learn what is happening from industry players at the same time from each other. It builds a lot of value for everybody, you'll go back from here making friends in the industry learning things that you may have known or may have read somewhere. Real Estate is truly something that is going to change the face of the country; we all are responsible to make a difference to the city and life of the people in the city. We are the true nation builder, we should do the best that we can and gather education from all sources. When I was delivering the session at REMI, I had a group of very talented young developers listening to me in wrapped attention. It gave me a great chance to interact with present and future leaders of real estate industry.”

They have come from various cities and states such as Delhi, NCR, Pune, Mumbai etc. The content has been curated in a way that it caters to each and every aspect right from the construction industry to finance. My experience was wonderful, the participants, students and developers present there very keen on exploring the emerging trends. And I'm quite hopeful that this program will grow in real estate and will be a great contributor and uplift this wonderful industry.”

Very interesting speakers from diverse industries sharing their expertise. There was a wealth of experience in the room both with the high quality of participants and speakers. I have gained many insights - from GST, legal implications of joint development structuring, how RERA is impacting our industry to sustainability and green building technology and the future of developments.
